PROFILE

Passionate and versatile storyteller with hands-on experience across the core pillars of filmmaking writing, direction, and editing. I bring scripts to life with a director's vision, craft compelling narratives with a writer's soul, and refine every frame with an editor's precision. From scripting short films and ad concepts to directing narrative-driven shoots and editing cinematic content using tools like DaVinci Resolve. I thrive in shaping raw ideas into powerful visual experiences. Whether leading a crew on set or shaping stories in the editing suite, I aim to create content that connects, provokes, and resonates.
